SUMMARY

A Java Developer skilled in back-end technologies and a basic understanding of front-end development for seamless system integration. Seeking an opportunity in a results-driven organization where my software development skills can contribute the company's growth while growing professionally.

SKILLS

Backend Development
• Java, Spring Boot, Microservices, REST APIs, Spring Security, JPA/Hibernate

Frontend Technologies
• HTML, CSS, Bootstrap, JavaScript

Cloud & DevOps
• AWS, Docker

Databases
• MySQL, PostgreSQL

Testing & Code Quality
• JUnit, Mockito, Swagger

PROFESSIONAL EXPERIENCE

Software Engineer – HCL Technologies Ltd (July 2022 – Present)
Shipment Service

• Designed and developed scalable microservices and REST APIs using Spring Boot, JPA, and Hibernate.

• Involved in integrating AWS S3 for secure storage and retrieval of shipment-related documents

• Developed reusable RESTful endpoints for various microservices to ensure maintainability and consistency across the application.

• Contributed to the design and maintained the service layer architecture, ensuring better separation of concerns.

• Documented API using swagger for easy integration.

Technologies Used: Java, Spring Boot, Hibernate, Microservices, Swagger, AWS

Internship – HCL Technologies Ltd (April 2022 – June 2022)
Blog Application with JWT Authentication
• Developed a secure blog management system with JWT authentication and role-based access control.

• Implemented CRUD operations for blog posts, ensuring a seamless user experience.

• Designed comprehensive API documentation using Swagger to facilitate easy integration.

Technologies Used: Java, Spring Boot, Spring Security/ JWT, Hibernate, Swagger

CERTIFICATIONS
• AWS Certified Cloud Practitioner – Amazon (Dec 2023)

EDUCATION
B. Tech in Electrical Engineering – Biju Patnaik University of Technology, Bhubaneswar, CGPA:7.29
